Summary

Software engineer experienced in building and maintaining full-stack web applications, with a focus on delivering reliable, well-crafted products and contributing meaningfully to the teams behind them. Sharing my experience with the community through social media, blog, and YouTube channel.

Experience

Charik, Full-Stack Developer

- Transitioned from front-end to full-stack development, becoming fully productive with Python and Django in 2 weeks.
- Developed and maintained core Charik products, integrating multiple data sources and third-party services for a cohesive system.
- Collaborated closely with the DevOps engineer for the CI/CD and infrastructure setup and maintenance.
- Diagnosed and resolved long-standing critical bugs.
- Took on team leadership responsibilities, contributing to developer hiring, onboarding, and technical direction.
- Mentored junior developers through PR reviews, pair programming and code quality discussions.
- Tech stack: Python, Django, PostgreSQL, React, TypeScript, Docker and Docker Compose, Tailwind CSS...

Remote (France)
Jan 2024 – present

Independent, Front end Developer

- Delivered several client projects, collaborating with designers and addressing front-end needs such as custom features, responsive layouts and debugging.

Remote
Apr 2023 – present

NXTYOU, Front end Developer

- Collaborated with designers to convert Figma designs into responsive websites using Next.js and Tailwind CSS.

Remote (Germany)
Jan 2023 – Apr 2023

Gen 42, Front end Developer Intern

- Contributed to an internal product for collecting and visualizing social media data, enabling users to generate reports via a GUI editor.

Remote (Algiers)
Oct 2022 – Jan 2023

Projects

Offset Prototypes

[Link ↗](#)

- Developed an online marketplace for on-demand prototyping, allowing users to upload STEP files, receive instant quotes, and place orders for prototypes.
- Technologies: Next.js, TypeScript and Material UI.

Omran Summit

[Link \(archived, event ended\) ↗](#)

- Responsible for ensuring the responsiveness of the project, optimizing layouts for various devices to enhance the user experience across platforms.
- Technologies: Next.js, TypeScript, shadcn and Tailwind CSS.

Patrik Kühnen

[Link ↗](#)

- Worked on the client's website, implementing key front-end features and ensuring cross-device responsiveness during my time with NXTYOU.
- Technologies: Next.js, TypeScript and Tailwind CSS.

Küffner Capital

[Link ↗](#)

- Developed a responsive website for the client during my time at NXTYOU, converting Figma designs into a functional, user-friendly interface.
- Technologies: Next.js, TypeScript and Tailwind CSS.

- An archive of educational resources for ESI SBA students, receiving +400 daily visits.
- Technologies: Astro, TypeScript and Tailwind CSS.

Education

BSc **Higher School of Computer Science (ESI SBA)**, Computer Science

Sidi Bel Abbes
2019 – 2022

MSc **Higher School of Computer Science (ESI SBA)**, Systems Engineering

Sidi Bel Abbes
2022 – 2024
